ATHLETIC CLUB

Pelican Athletic Club's Weather Policy - Outdoor Pool

PAC's lifeguards will close the outdoor pools for 20 minutes at the sight of lightning. After determining the distance of lightning from our location using the "flash to bang" rule and the assistance of a lightning detection device, they will assess the danger to our members. As they continue to watch, the 20 minutes can possibly reset at each sight of lightning. If it is raining hard and the lifeguards cannot clearly see the bottom of the pool, they will close the pools. We will re-open the pools and continue on our normal operating schedule as soon as the weather threat has passed. Should the lifeguards continue to SEE LIGHTNING, the pools will remain closed.
